

## CardSwitch to Participate at EBUG Conference in Vienna

31 March 2008

**Date:** 22nd to 25th April 2008

**Venue:** Hilton Vienna Stadtpark

This year's theme '360° Security - Taking Control' - echoes the current direction of our industry. Whether it is Sarbanes/Oxley or PCI-DSS, security in all its forms is driving how our systems operate. Because of this, as customers, we are all involved in projects that have as their business case, a security aspect.

At EBUG 2008, come and hear what the experts and other delegates are saying and doing to achieve 360° Security - Taking Control.

CardSwitch is a silver sponsor for this event and can be found in the exhibition area during the conference.
